# Free\* Home Energy Surveys

\*Donations are very welcome - so we can support more households

## What is a Home Energy Survey?

Our Energy Champions visit your home (usually in the evening). Using thermal images we provide suggestions to make your home warmer and potentially save money. After the survey, we can offer loft insulation and energy-saving 'smart packs', with items such as radiator foils, LED bulbs and draught-proofing.

## What does this cost?

Nothing. Our home surveys and energy-efficiency measures are free - thanks to funding from UK Power Networks. Loft insulation is free for households in Council tax bands A-D and subsidised for other households.

**Energy Action Redhill and Reigate** is a not-for-profit community benefit society. We support homes in East Surrey to become more energy efficient. Our **Energy Champions** are local volunteers and paid staff with an interest in energy efficiency. We are all trained, DBS checked and work in pairs.
